RESPONSE TO RESTRICTION REQUIREMENT

Sir:

Applicant herein initially selects the species I, FIGS. 1-5 as the distinct species for initial prosecution.

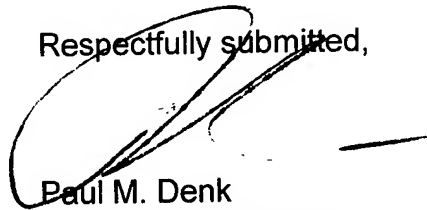

The claims that relate to that elected species would appear to be claims 1-17. And, claims 19, 20-34, 36, 37-41, and 42-51. Claim 54 also appears to relate to a triangular pyramid. And, claims 54-59, and claims 61-73, and 75, 76, and 78. In other words, any one of these devices that is formed as a triangular bag or pyramid, and which incorporates up to three panels in its structure, would certainly contemplated by the structure and the appearance, and applicable usage as a foldable caution device with bag, as described in these claims, and as shown for the triangular embodiments as disclosed in the elected species.

Any of the species that may be fabricated from four panels, or shaped as hexagonal, octagonal, or square in shape, may be of a different species than these selected herein.

Thus, the restriction requirement as elected herein, was done with traverse, unless the elect species includes anything of a triangular construction.

The examiner's further review of this matter would be appreciated.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Paul M. Denk", is written over the typed name.

Paul M. Denk
